# BizInsight™

We Make Excel Reporting Fun.

BizInsight is our Excel-based reporting platform that helps you build your reports in minutes rather than days. Our Excel data reporting software takes your traditional report and makes it dynamic, allowing you to dive deeper into the numbers and find the answers you need. Made easy with the user friendly and intuitive BizInsight Query Tool, drill down repeatedly, add fields and uncover actionable information within a quick drag-and-drop interface.

- Load BizInsight within Excel
- Training tips accessible within Excel
- Incorporate data from unlimited sources
- Build complex queries without SQL experience
- Update data & reports with a single click
- Auto calculate formulas
- Streamline report design
- Manage your data caches
- Locate & solve Excel errors
- Embed data for offline analysis
