Category

Mid-sized Accounting for Not-for-Profit Organizations

Best Fit

Small to mid-sized Not-for-Profit Organizations such as charities, churches, assisted living, hospice, government

Strengths

- Ability to track funds and grants
- FASB 117 reporting
- Automatic offset and fund maintenance and balancing and account types
- Customized to non-profit accounting classifications
- CYMA Not-For-Profit software can use any CYMA module (Job Costing, Payroll, Inventory Control, etc.) making the software flexible for any nonprofit organization.

Brief Product Description and Pricing

CYMA Not-For-Profit Accounting Software offers sophisticated accounting with features and flexibility that should fit most mid-sized Not-for-Profit organizations. CYMA's accounting software solution is for organizations such as charities, social services, churches, foundations, and others that need Not-for-Profit accounting.

Functionality of CYMA Not-for-Profit

- Robust General Ledger with automatic fund balancing, grant tracking, and complete FASB117 reporting
- Sophisticated Payroll and employee self-service to handle the most demanding and unique payroll needs including those of hospice and independent living centers
- Human Resources aimed at employee cost management tracking benefits, positions, applicants, credentials, licensing, and more
- Powerful Accounts Payable and Purchase Order module helping manage and control expenses and enter invoices
- Extensive import and export features allowing the flexibility to link the CYMA accounting system to fundraising and POS systems
- A system that is deployable as a server-based system or as a hosted, Internet-based environment
- Training & Implementation at a fraction of other high-end NFP accounting systems

- Advanced Budgeting for Non-Profit organizations and corporate users requiring extensive budget control capability, including:
 - The ability to approve and lock budgets
 - Transaction-based Budget changes, including a full audit trail of changes made to budgets
 - Real-time budget checking for Purchase Order and AP Invoice Entry
 - Ability to roll over unused budget amounts to new year

Technical Specifications

This application may be installed and run as a single-use workstation on a standard Windows based PC, IE 7 or higher, Windows 7 or higher. At least 500MB of free disk space is necessary.

This application may also be installed with the Pervasive Database and related programs implemented on a Microsoft Windows 2000 SP4 Server or higher with Java Runtime Environment of at least 4GB of disks.

Integration with Accounting and Ease of Setup

The product can be installed as a stand-alone or in a network by an end user. Pervasive SQL Database is required, and licensing is available via a CYMA account representative.
